Vision from Our Founder

Dr. Dong Sun Lim
WMU Founder

World Mission University was founded by Reverend Dong Sun Lim on his firm determination and belief that “*The Global Village is My Ranch*”. There was no place too far or remote to take the message of the gospel. Founder Dong Sun Lim was a life-long missionary who had a passion to take the message of the gospel to the ends of the world. Founder Dong Sun Lim’s desire was to raise up Christian leaders with a strong desire to expand the kingdom of God. World Mission University was established to train pastors, missionaries and lay leaders.

Founder Lim’s vision was to establish a quality educational institution both academically and spiritually.

“The reason I founded this school was to train faithful pastors, passionate missionaries, and lay leaders. What I dream for this school will not be achieved overnight. My hope and prayer is that World Mission University would become a Korean Harvard, a Korean Yale, and a Korean Princeton in the near future”. (Dong Sun Lim, *Retrospect and Prospect*, 2000).

Through a shared and united vision for the school, the leadership of World Mission University stands committed to realize/expand on the vision that founder Dong Sun Lim had for the institution and what God has in store for our future.

Message from the President

Dear Friends,

I am delighted that you are studying at World Mission University. Our desire is to train men and women who will impact the world for Christ. Whether as full time pastors, missionaries, or as lay leaders, I believe that God has a clear purpose for each one of us.

I am excited that you have decided to answer God's call for ministry.

Every day, our Christian values and beliefs are being challenged and threatened. There is a distinct need for godly, spirit-filled servant leaders to combat these threats and lead men and women through these challenges.

We stand committed to develop godly, spirit-filled servant leaders to be the leading men and women of God to expand His kingdom.

Once God leads you to WMU, I am confident that the faculty, staff and administrators will assist you to grow academically, personally and spiritually to become a godly, spirit-filled servant leader. May God bless you as you seek His guidance.

The WMU library is equipped with computer stations with internet access, spacious study tables for study groups, as well as more secluded study areas. The collection consists of over 56,000 volumes to support the curriculum. The electronic library catalog makes the resources of the library available for both local and Online students.

The library is a member of The Southern California Theological Library Association (SCATLA) which provides WMU students access to over one million theological volumes.

Denominational Recognition

World Mission University (WMU) is a member of World Evangelical Mission Alliance (WEMA). WEMA recognizes World Mission University as a major source for training prospective missionaries, ministers, professionals, and church leaders.

A Brief History

On September 28, 1988, the Oriental Mission Church implemented a special committee to pray about the need for a new seminary for training missionaries, pastors, and lay leaders. When the meeting adjourned, the seed that would become World Mission Theological Seminary had been

planted. In March 1989, World Mission Theological Seminary started with thirty-two students and Rev. Dong Sun Lim was appointed as the first President.

World Mission Theological Seminary was authorized to issue the Master of Divinity and Master of Arts degrees in 1991, and the Bachelor of Arts degree in 1992 by the California Department of Education. In 1993, the name of the institution was changed from World Mission Theological Seminary to World Mission University to reflect the school's broader offering of programs.

In August 2003, the institution moved to a new location in Koreatown, a center of downtown Los Angeles. In 2004, World Mission University achieved Candidate Status from the Association for Biblical Higher Education. Today, World Mission University is accredited by the Association of Biblical Higher Education and the School of Theology is accredited by the Association of Theological Schools. All two accrediting agencies are members of the Council for Higher Education Accreditation and recognized by the United States Department of Education.

Statement of Faith

WMU subscribes to the historic creeds of the Church including The Apostle's Creed and stands firmly in the confessional tradition of Protestant Evangelicalism.

1. We believe the Bible is the inspired Word of God and the only standard for faith, life, and academic discipline (2 Peter 1:21; Isaiah 1:20; 2 Thessalonians 2:15; 2 John 9; 1 Timothy 6:20; 2 Timothy 1:14).
2. We believe in the Holy Triune God, existing eternally in three persons, the Father, the Son, and the Holy Spirit (Matthew 28:19; John 10:30; 14:9; 1 John 5:7; 2 Peter 1:2; 2 Corinthians 13:14) .
3. We believe in the creation of the universe as presented in Scripture and in the reality of heaven and hell and the literal existence of the devil (Hebrews 1:10; 11:3; Revelation 3:14; Romans 4:17; John 1:3; 1 Corinthians 8:6; 2 Peter 2:4; Jude 6; Acts 5:3; Luke 22:3; Matthew 13:24-30; 1 Corinthians 7:5; 2 Timothy 2:26).

4. We believe God created humankind in His image and likeness, but by the disobedience of Adam, all humankind was alienated from God and lost (Hosea 9:15; Jeremiah 12:8; Psalms 5:5; 11:5; Romans 1:18; John 3:36).
5. We believe that Jesus of Nazareth is the Messiah, the Son of God, born of the Virgin Mary, who died on the cross, was physically resurrected from the dead, ascended into heaven, and will one day return in His glory to reign upon the earth (Mark 1:1; Matthew 1:25; Luke 1:26-28; Matthew 27:35; 1 Peter 1:3; Matthew 24:30, 64; Mark 13:26; Luke 21:27; John 14:3; 1 Thessalonians 4:15-16).
6. We believe in the gospel of salvation through the cross for those that put their faith in Jesus will be saved (John 1:12; 3:16; Ephesians 2:8-9; Acts 10:43).
7. We believe that the Church is the body of Christ and that the people of God are called to mission, education, and service (Matthew 28:19-20; Luke 4:18-19; Acts 1:8; Ephesians 4:12; 1 Corinthians 9:14, 16).

Diversity Statement

World Mission University (WMU) believes that all people are created in the image of God (Gen 1:27), are all one in Christ Jesus (Gal. 3:28) and are to pursue unity in Christ Jesus (John 17:21). These principles guide/direct WMU's approach to diversity. We believe that God loves all people and has called his followers to do the same. We believe it is supremely important to build a biblical community and seek to preserve the dignity and worth of every individual. We embrace individuals of different distinctives, including but not limited to culture, race, ethnicity, gender, socio-economic status, religion and ability. WMU is firmly committed to fostering a safe, inclusive, and equitable campus for all our students, staff and faculty.

Marriage and Human Sexuality

Marriage

Marriage has been ordained by God and is the exclusive covenantal union between a man and a woman in which such union is a lifetime commitment. A civil government's sanction of a union will be recognized as a legitimate marriage by the World Mission University only to the extent that it is consistent with the definition of "marriage" found in the Articles of Incorporation.

Human Sexuality

Legitimate sexual relations are exercised solely within marriage. Hence, sexual relations outside of marriage (referred to in the New Testament as "porneia"-- πορνεία) including but not limited to, adultery, premarital sex, homosexuality, and pedophilia are inconsistent with the teachings of the Bible and the WMU.

Student Records and Family Educational Rights and Privacy Act (FERPA)

Student Records

The Board of Directors of World Mission University have adopted a resolution that all school records shall be retained for a minimum of five years with the exception of individual student records which shall be kept permanently, securely, and confidentially. The Board of Directors will from time to time verify that the school administrators are in fact adhering to the requirements of this resolution. All records of the University are located in the main office. The important records, including each student's file, grade reports, and financial records, are stored in fire-proof cabinets and on computer disks. In case of the closing of the school, the World Evangelical Mission Alliance will be responsible to retain all documents.

Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day World Mission University (hereinafter referred to as WMU) receives a request for access.

A student should submit to the registrar or academic dean a written request that identifies the record(s) the student wishes to inspect. The

registrar or academic dean will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the registrar or academic dean, the official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.

A student who wishes to ask WMU to amend a record should write to the registrar, academic dean or other official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If WMU decides not to amend the record as requested, WMU will notify the student in writing of the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing. After the hearing, if WMU still decides not to amend the record, the student has the right to place a statement with a record setting forth the student's view about the contested information.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

- a. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by WMU in an administrative, supervisory, academic or research, or support staff position; a person or company with whom WMU has contracted (such as an attorney, auditor or collection agent); a person serving on the board of trustees; or members of official committee, such as disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, WMU discloses education records without

consent to officials of another school in which a student seeks or intends to enroll.

- b. Another exception that permits disclosures without consent is the disclosures of directory information, which the law and WMU defines to include the following: a student's name, home and campus address, e-mail address, telephone listing, parent's name and address(es), major field of study, participation in officially recognized activities, dates of attendance, degrees and award received, photograph and the most recent previous educational agency or institution attended.

These exceptions are subject to the right of student to object to the designation of any or all of the types of information listed above as directory information in his or her case, by giving notice to the Dean of Student Affairs on or before September 15 of any year. If such an objection is not received, WMU will release directory information when appropriate.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by WMU to comply with the requirements of FERPA.

Students may review FERPA regulations, frequently asked questions, significant opinions, and other information regarding FERPA through the following website:

www.ed.gov/policy/gen/guid/fpco/index.html

For concerns or issues that were not addressed on the website, students may contact the Office at the following address:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-8520

Questions regarding FERPA and the procedures followed by the WMU to comply with the act may be referred to the office of academic dean or the registrar.

Time Limit for Completion of Program

Students who receive financial aid must take 8 classes (24 credits) and complete all courses within two semesters.

All courses and examination requirements must be completed within two years. An extension may be granted for special circumstances.

Academic Freedom Policies

WMU recognizes that within the field of education, academic freedom is a highly held right. In that regard, WMU will do everything possible to ensure that faculty members are given the freedom to represent views, theories, research results, and opinions in the normal process of teaching their assigned courses. However, WMU also recognizes that academic freedom must be weighed in response to the responsibilities of Christian faith and practice. The principles of developing Christian community, the responsibility of leadership by faculty members as role models to the students, and the ethics of Christian faith as prescribed by the school's Statement of Faith also provide the boundaries within which faculty members are given to exercise their academic freedom. Faculty members, who hold differing and potentially contentious theological views, may be asked to step down from their faculty positions. When this happens, WMU will still hold the resigning faculty member in highest regard, realizing that the human perspective on theological truth is never complete and clear.

WMU has adopted the statement of Academic Freedom as developed by the Association of Theological Schools, a recognized accrediting association by the U.S. Department of Education, as its standard concerning faculty academic freedom. The statement reads as follows:

1. The Christian faith directs all thought and life toward God who is the source of truth, the judge of all human thoughts, and the ultimate end of all theological inquiry.
2. The freedom of the Christian always involves a commensurate responsibility toward God and neighbor. It is never the freedom merely to be left alone or ignore basic obligations.
3. Christian freedom exists within the confession of Christian faith. A theological

school may acknowledge specific confessional adherence as laid down in its own charter and constitution. A concept of freedom appropriate to a theological school will respect this confessional loyalty, both in the institution and with their individual members. At the same time, no confessional standard obviates the requirement for responsible liberty of conscience in the Christian community and the practice of the highest ideal of academic freedom.

4. While freedom must ultimately be realized through the spirit and loyalties of humanity, it must take form and be protected through concrete standards of institutional practice. Every statement of such standards moves somewhat in the sphere of law and regulation. We recognized that the effectiveness of stated principles depends finally upon the dedication within the Christian theological school to a genuine concern for liberty of mind and spirit in theological teaching.

Right to Review the Academic Record

Students have the right to review their own academic records and files. To review them, a request form must be filed with the Registrar. Any errors will be corrected.

Satisfactory Academic Progress Policy

Certificate program students are to follow the same guidelines as undergraduate students as stated below.

Full-Time Undergraduate Students:

Satisfactory Academic Progress toward a baccalaureate degree as a full-time undergraduate student is obtained by completing 12 or more credits per semester or 24 or more credits per academic year while maintaining a cumulative GPA of 2.0 or higher. Repeated courses which students previously passed cannot be counted toward minimum Satisfactory Academic Progress requirements. The student must complete the degree requirements within the period of time required when progressing at the minimum full-time rate.

Academic Standing

At the end of each semester, a student's progress will be monitored. When there is evidence of lack of satisfactory progress toward meeting completion requirements, the Academic Committee may place students on academic probation or disqualify them from attendance at the university.

Academic Integrity Commitment

The maintenance of academic integrity and quality education is the responsibility of each student at World Mission University (WMU). Cheating or plagiarism in connection with an academic program is an offense for which a student may be expelled, suspended, or given a less-severe disciplinary action. Academic dishonesty is a serious offense which diminishes the quality of scholarship and defrauds those who depend upon the integrity of the educational system. Academic dishonesty includes:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
 - a. Students completing any examination should assume that external assistance (e.g., Books, notes, calculators, conversations with others) is prohibited unless officially authorized by the instructor.
 - b. Students may not allow others to conduct research or prepare any work for them without advance authorization from the instructor.
 - c. Substantial portions of the same academic work may not be submitted for credit in more than one course without authorization.
2. Fabrication: Intentional falsification or invention of any information or citation in an academic exercise.
3. Facilitation of academic dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.
4. Plagiarism: Intentionally or knowingly representing the works, ideas, or work of another as one's own in any academic exercise.

- 1/3 of a credit **may** be granted for each credit earned at an unaccredited American school that **has not** achieved state approval with a limit of 30 credits.

It is the responsibility of the student desiring the transfer of credit from a non-accredited institution to provide WMU with academic catalogs of the attended institutions and syllabi of each course to be considered for transfer.

Prior Experiential Learning

World Mission University does not award any credit for prior experiential learning.

Academic Policies

The school operates on a traditional semester calendar. There are two semesters in the academic year that occur from August to May. The Fall Semester usually starts the last week of August and ends in December. The Spring Semester usually starts the last week of January and ends in May. During the academic year each semester is 16 weeks in length. The Summer and Winter sessions are divided into several two-week intensive courses.

The majority of courses are equivalent to three semester hours of credit and thus requires a minimum of 37 1/2 contact hours. Each credit represents one fifty-minute period of class instruction for each of the fifteen weeks plus approximately two-to-three hours of out-of-class involvement. For field education, 30 hours of ministry involvement is required for one unit.

Undergraduate students must be enrolled for a minimum of 12 semester credits in order to be classified as full-time students. Special permission must be granted to enroll in more than 18 credits per semester for undergraduate students. Such permission must be approved in writing from the Chief Academic Officer before registration. Students can obtain the form in the main office.

Grading

World Mission University utilizes letter grades. Grades are reported to students in writing from the Registrar's Office. Grades are designated as follows:

Grade	GPA	Numeric Description
A	4.0	93+
A-	3.7	90-92
B+	3.3	88-89
B	3.0	83-87
B-	2.7	80-82
C+	2.3	78-79
C	2.0	73-77
C-	1.7	70-72
D+	1.3	68-69

D	1.0	63-67

F	0.0	0-59
I	Incomplete**	
CR	Credit***	
NC	No Credit	
H	Hold	
P	Pass	
NP	No Pass	

* A grade of “I” can be raised to a grade of “B+” by the end of the next semester when all course requirements have been satisfied.

** A grade of “CR” will not be included in the computation of Grade Point Average.

*** A grade of “F” can be raised a maximum grade of “B+” after retaking the course.

Course Prerequisite Requirement

Undergraduate courses that require students to take prerequisite courses are as follows: CC215 Family Life Ministry (Prerequisite: 9 credits of Counseling Studies), CC331 Multicultural Counseling (Prerequisite: LA102 Introduction to Psychology and CC412 Counseling Theory and Techniques), MT355 Keyboard Harmony II (Prerequisite: MT255 Keyboard Harmony I).

Repeated Courses

If a student receives a failing grade, the student may retake the course. If the course is retaken, the new grade will be calculated into the student’s Grade Point Average (GPA) replacing the previous failing grade. The credits are counted only once. All grades become a permanent part of the student’s academic history. Student must pay the current tuition to retake the course.

Incomplete policy

Sometimes a student discovers that they are unable to finish their requirements for a course or courses during a semester. Sometimes, life presents us with problems that we have no way of foreseeing or planning for. In these situations, a student may need extra time to complete their course requirements. If a student needs extra time to complete their course work, WMU has devised a way to help individual students work through these problems.

Please be sure to follow the procedures correctly: First, students need to obtain permission for an incomplete from the Dean of Academic Affairs. Then, students must obtain approval from the instructor. Students should not assume that he/she will be given an incomplete for a course just because he/she chose not to complete the assignments, tests or quizzes. Instructors will assign grades based on submitted work if students have not been granted an official incomplete from the Dean of Academic Affairs office. Students who have been given an incomplete will not receive credit for the course before work is completed.

Auditing

Regularly matriculated students as well as those not enrolled in the school may audit a course upon the written permission of the Dean of Academic Affairs. An application to audit must be submitted and tuition must be paid before auditing. Credit is not given for audited courses. There are no scholarships available for auditing students. The fee for auditing a course is 50% of the regular tuition. Some courses are not allowed to audit.

Class Attendance

Regular classroom attendance is crucial, and students are expected to attend all classes. Absences exceeding 1/3 (6 wks) of the total scheduled class periods (16 wks) will result in an automatic failing grade.

Registration

To begin study, all students must submit registration forms each semester which have been approved by the students’ academic advisor. Student information, the title and number of the course, academic advisors signature and students’ signature regarding the financial policy are required.

Full/Part Time Status

Undergraduate students who register for 12 or more semester credits are considered full time students. However, in order to graduate on-time, undergraduate students should register for at least 15 credits each semester. Any student whose GPA in a previous semester is 3.5 or above can register for up to 21 semester credits with the Chief Academic Officer’s approval.

Time Limits for Completion of Degree

All courses and examination requirements must be completed within six years beginning from the date of the student's first registration at World Mission University. An extension may be granted for special circumstances.

Requirements for Graduation

In addition to the regulations outlined under the sections dealing with degree requirements in this catalog, a Grade Point Average of 2.0 or above is required for graduation with the bachelor's degree. Students must fulfill all financial obligations to WMU and file a petition to graduate before the middle of February to be eligible to receive a degree in June.

Application for Graduation

Students must file their applications and pay their graduation fee at the time of enrollment for their last semester of study. All financial accounts and documents, files, etc., are to be in satisfactory order before a student is permitted to graduate. Students are expected to be present for graduation. Graduation in absentia will be permitted only by special approval of the Chief Academic Officer in response to a written request that cites acceptable reasons.

Academic Freedom Policies

WMU recognizes that within the field of education, academic freedom is a highly held right. In that regard, WMU will do everything possible to ensure that faculty members are given the freedom to represent views, theories, research results, and opinions in the normal process of teaching their assigned courses. However, WMU also recognizes that academic freedom must be weighed in response to the responsibilities of Christian faith and practice. The principles of developing Christian community, the responsibility of leadership by faculty members as role models to the students, and the ethics of Christian faith as prescribed by the school's Statement of Faith also provide the boundaries within which faculty members are given to exercise their academic freedom. Faculty members, who hold differing and potentially contentious theological views, may be asked to step down from their faculty positions. When this happens, WMU will still hold

the resigning faculty member in highest regard, realizing that the human perspective on theological truth is never complete and clear.

WMU has adopted the statement of Academic Freedom as developed by the Association of Theological Schools, a recognized accrediting association by the U.S. Department of Education, as its standard concerning faculty academic freedom. The statement reads as follows:

1. The Christian faith directs all thought and life toward God who is the source of truth, the judge of all human thoughts, and the ultimate end of all theological inquiry.
2. The freedom of the Christian always involves a commensurate responsibility toward God and neighbor. It is never the freedom merely to be left alone or ignore basic obligations.
3. Christian freedom exists within the confession of Christian faith. A theological school may acknowledge specific confessional adherence as laid down in its own charter and constitution. A concept of freedom appropriate to a theological school will respect this confessional loyalty, both in the institution and with their individual members. At the same time, no confessional standard obviates the requirement for responsible liberty of conscience in the Christian community and the practice of the highest ideal of academic freedom.
4. While freedom must ultimately be realized through the spirit and loyalties of humanity, it must take form and be protected through concrete standards of institutional practice. Every statement of such standards moves somewhat in the sphere of law and regulation. We recognized that the effectiveness of stated principles depends finally upon the dedication within the Christian theological school to a genuine concern for liberty of mind and spirit in theological teaching.

Withdrawal & Leave of Absence

Students wishing to withdraw from the school must complete a Petition to Withdraw, secure the

necessary signatures, and submit it to the registrar's office. Courses must be officially dropped or a grade of "F" will be entered on the permanent record. Failure to properly withdraw will result in the student not being allowed to re-enroll in the future or to receive proper refunds.

In the case of discontinuing course work due to serious illness or other valid reasons, permission for a leave of absence may be granted by the Chief Academic Officer. The student must submit a Leave of Absence Form and in certain cases submit a petition with documentation (i.e., a note from a licensed doctor, etc.).

International Students

Those who want to transfer out have to complete a Petition to Transfer, secure the necessary signatures, and submit it to the registrar's office.

International students who want to transfer in should complete the Transfer Release form and get necessary information from the previous schools for benefits of F-1 visa status.

Contract, Cancellation, and Dismissal

Registration can be canceled anytime by students without hindrance. The contract and cancellation forms are available in the admissions office.

Concerning refunds, see the Financial Information section.

Students who do not register consecutively for more than two semesters without written notification will be dismissed automatically for academic reasons. Dismissed students desiring to be re-admitted must submit a re-admission application.

Right to Review the Academic Record

Students have the right to review their own academic records and files. To review them, a request form must be filed with the Registrar. Any errors will be corrected.

Satisfactory Academic Progress Policy

Full-Time Undergraduate Students:

Satisfactory Academic Progress toward a baccalaureate degree as a full-time undergraduate student is obtained by completing 12 or more credits per semester or 24 or more credits per academic year while maintaining a cumulative GPA of 2.0 or higher. Repeated courses which students previously passed cannot be counted toward minimum Satisfactory Academic Progress requirements. The student must complete the degree requirements within the period of time required when progressing at the minimum full-time rate. For example, in a program requiring 126 credits progressing at 12 credits, a student would have 11 semesters (approximately 5 years) to complete the program. When a student takes 12 credits each semester, he/she is considered full time, however, in order to complete the program within the "normal" time frame, a student must take approximately 15 credits each semester.

Academic Standing

At the end of each semester, a student's progress will be monitored. When there is evidence of lack of satisfactory progress toward meeting graduation requirements, the Academic Committee may place students on academic probation or disqualify them from attendance at the university.

Academic Warning

Undergraduate students receive an academic warning when the semester GPA is lower than 2.0 but the cumulative WMU GPA is 2.0 or higher. This notation is not recorded on the student's academic transcript.

Academic Probation

To remain in acceptable academic standing, an undergraduate student must maintain a cumulative GPA of 2.0 in their coursework taken at World Mission University. The school will notify the student in writing, when their cumulative GPA is below 2.0 and place the student on academic probation for two semesters. Academic probation will be recorded on the student's permanent academic record.

Students on academic probation are limited to a course load of 12 credits or fewer.

A student failing to attain the minimum GPA during the probationary period may be dismissed. If the student remains on probation for two consecutive semesters the student may be dismissed from WMU. Incoming students may be admitted on academic probation.

The student's High School or undergraduate GPA was below the admission standard.

Probation Removed

If the student raises their cumulative GPA above the minimum requirement during the probation period, he/she will be removed from probation and it will be recorded on the student's academic record.

Appeals

If a student is dismissed for failure to meet academic standards, the student may appeal to the Academic Committee for readmission. The student must show that there were exceptional circumstances involved and provide evidence indicating that he or she can remove the GPA deficiency within one semester.

Academic Integrity Commitment

The maintenance of academic integrity and quality education is the responsibility of each student at World Mission University (WMU). Cheating or plagiarism in connection with an academic program is an offense for which a student may be expelled, suspended, or given a less-severe disciplinary action. Academic dishonesty is a serious offense which diminishes the quality of scholarship and defrauds those who depend upon the integrity of the educational system. Academic dishonesty includes:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
 - a. Students completing any examination should assume that external assistance (e.g., Books, notes, calculators, conversations with others) is prohibited unless specifically authorized by the instructor.
 - b. Students may not allow others to conduct research or prepare any

work for them without advance authorization from the instructor.

- c. Substantial portions of the same academic work may not be submitted for credit in more than one course without authorization.

2. Fabrication: Intentional falsification or invention of any information or citation in an academic exercise.

3. Facilitation of academic dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.

4. Plagiarism: Intentionally or knowingly representing the works, ideas, or work of another as one's own in any academic exercise.

International Students

F-1 students are held to the same standards as regular students and must maintain academic eligibility.

If an F-1 student fails to maintain Satisfactory Academic Progress, he/she will be notified in writing and placed on academic probation for one semester. The F-1 student must show he/she is making progress during the probation period. If at the end of that semester the student has not brought their GPA above the satisfactory level of 2.0 for undergraduate, the student will be dismissed from the university and their I-20 will be terminated.

Financial Aid Students

One of the requirements of eligibility for federal financial aid is a student must maintain Satisfactory Academic Progress (SAP) and be in good academic standing. At the end of each semester WMU will measure the student's SAP and academic standing in the following ways:

1. Cumulative GPA
All students who have attempted more than 16 credits must maintain a cumulative GPA of 2.0 or higher.

GPA's are reviewed at the end of each semester.

Students who fail to maintain the minimum GPA will be given one semester of probation for Financial Aid in which they must earn the above GPA for that semester or they will be suspended from the Federal Aid programs and not eligible for aid the following semester.

2. Class Completion Rate

The number of credits a student has successfully completed at WMU is calculated each semester.

Full-time undergraduates must complete 21 credits per year in order to graduate on time.

The student has a maximum time limit to complete his/her degree or program at WMU. BA degree program maximum time limit is 12 semesters.

Consequences of Failing

Failing to maintain SAP can adversely affect a student's eligibility for current and future financial aid. The student will not be eligible to receive WMU scholarships, Pell Grant or Campus Based funds until he/she regains eligibility or a petition is approved on his/her behalf. Even if a student's petition receives approval, he/she may not be eligible to receive funds from past semesters.

Financial Aid SAP Petition Policy

WMU acknowledges that there are certain circumstances that may limit a student completing his/her courses or maintaining SAP. Students can request a petition for a SAP waiver if they meet one of the following criteria:

- Death in the family;
- Illness or medical emergency; and
- Other performance factors beyond a student's control.

To petition, a student must submit the following documentation:

- A letter explaining the exceptional circumstances that affected the student's ability to meet the Financial Aid SAP requirements;
- A resolution or plan of action explaining how the student will assure future academic success;

- A statement from the student's academic advisor confirming his/her ability to meet the SAP requirements; and
- Documentation of illness or medical condition. The student must provide a letter from his/her attending physician confirming that his/her condition will no longer hinder the student's ability to succeed academically. The letter must include the dates the condition occurred. The dates must coincide with the period in which the student failed to meet Financial Aid SAP requirements.

The Academic Committee will make a decision and notify the student in writing of a decision within 30 days of submission. Decisions of the Academic Committee are final.

GRADUATE PROGRAMS

MASTER'S DEGREE PROGRAMS

Graduate programs at WMU equip students to combine academic discipline with Christian formation and discipleship. Students are expected to demonstrate they have acquired knowledge on a graduate level of competency. The programs are designed to integrate knowledge of biblical and theological disciplines with practical skills to help broaden the student's Christian worldview.

Graduate studies are fundamentally different from undergraduate studies. Graduate students are expected to take significant responsibility in

determining what to learn and how to learn it. Instead of submitting coursework to professors, graduate students will often submit or orally present work to their peers for comments, reflection, and ideas for improvement. Sometimes this involves team projects. A research paper at the bachelor's level may primarily require that a student report what authors have said. Graduate students will be required to evaluate an author's work, or suggest applications to their ministries. In short, graduate students are responsible to take initiative – they are partners with their professors in their own education.

Academic Policies

The school operates on a traditional semester calendar. There are two semesters in the academic year that occur from August to May. The Fall Semester usually starts the last week of August and

ends in December. The Spring Semester usually starts the last week of January and ends in May. During the academic year each semester is 16 weeks in length. The Summer and Winter sessions are divided into several two-week intensive courses.

The majority of courses are equivalent to three semester hours of credit and thus requires a minimum of 37 1/2 contact hours. Each credit represents one fifty-minute period of class instruction for each of the fifteen weeks plus approximately two-to-three hours of out-of-class involvement. For field education, 30 hours of ministry involvement is required for one unit.

Graduate students must be enrolled for a minimum of 9 semester credits in order to be classified as full-time students. Special permission must be granted to enroll in more than 15 credits per semester. Such permission must be approved in writing from the Chief Academic Officer before registration. Students can obtain the form in the main office.

Grading

World Mission University utilizes letter grades. Grades are reported to students in writing from the Registrar's Office. Grades are designated as follows:

Grade	GPA	Numeric Description
A	4.0	93+
A-	3.7	90-92
B+	3.3	88-89
B	3.0	83-87
B-	2.7	80-82

F	0.0	0-59
I	Incomplete**	
CR	Credit***	
NC	No Credit	
H	Hold	
P	Pass	
NP	No Pass	

* A grade of "I" can be raised to a grade of "B+" by the end of the next semester when all course requirements have been satisfied.

** A grade of “CR” will not be included in the computation of Grade Point Average.

*** A grade of “F” can be raised a maximum grade of “B+” after retaking the course.

Course Prerequisite Requirement

Graduate courses that require students to take prerequisite courses are as follows: BT605 Exegetical Methods and Practices (Prerequisite: BL501 Greek I), CC591 Counseling Practicum I (Prerequisite: 6 credits of Professional Studies), CC592 Counseling Practicum II (Prerequisite: CC591 Counseling Practicum I), CC592 Counseling Practicum III (Prerequisite: CC592 Counseling Practicum II), PT524 Preaching Practicum (Prerequisite: PT514 Expository Preaching). Students are recommended to take BT501 Introduction to Old Testament and BT502 Introduction to New Testament prior to taking the biblical theology courses.

Repeated Courses

If a student receives a failing grade, the student may retake the course. If the course is retaken, the new grade will be calculated into the student’s Grade Point Average (GPA) replacing the previous failing grade. The credits are counted only once. All grades become a permanent part of the student’s academic history. Students must pay the current tuition to retake the course.

Incomplete policy

Sometimes a student discovers that they are unable to finish their requirements for a course or courses during a semester. Sometimes, life presents us with problems that we have no way of foreseeing or planning for. In these situations, a student may need extra time to complete their course requirements. If a student needs extra time to complete their course work, WMU has devised a way to help individual students work through these problems.

Please be sure to follow the procedures correctly: First, students need to obtain permission for an incomplete from the Dean of Academic Affairs. Then, students must obtain approval from the instructor. Students should not assume that he/she will be given an incomplete for a course just because he/she chose not to complete the assignments, tests

or quizzes. Instructors will assign grades based on submitted work if students have not been granted an official incomplete from the Dean of Academic Affairs office. Students who have been given an incomplete will not receive credit for the course before work is completed.

Auditing

Regularly matriculated students as well as those not enrolled in the school may audit a course upon the written permission of the Dean of Academic Affairs. An application to audit must be submitted and tuition must be paid before auditing. Credit is not given for audited courses. There are no scholarships available for auditing students. The fee for auditing a course is 50% of the regular tuition. Some courses are not allowed to audit.

Class Attendance

Regular classroom attendance is crucial, and students are expected to attend all classes. Absences exceeding 1/3 (6 wks) of the total scheduled class periods (16 wks) will result in an automatic failing grade.

Registration

To begin study, all students must submit registration forms each semester which have been approved by the students’ academic advisor. Student information, the title and number of the course, academic advisors signature and students’ signature regarding the financial policy are required.

Full/Part Time Status

Graduate students must register for 9 or more semester credits to be considered full time students. However, in order to graduate on-time, graduate students need at least 12 credits each semester. Any student whose GPA in a previous semester is 3.5 or above can register for up to 18 semester credits with the Chief Academic Officer’s approval.

Time Limits for Completion of Degree

All courses and examination requirements must be completed within four and a half years for the MDiv, and three years for the MA degree programs beginning from the date of the student’s first

registration at World Mission University. An extension may be granted for special circumstances.

Requirements for Graduation

A Grade Point Average of 2.5 or above for the master's is required for graduation. Students must fulfill all financial obligations to WMU and file a petition to graduate before the middle of February to be eligible to receive a degree in June. A graduate ministry project for all master's degree levels is required. MDiv students must pass a comprehensive Bible exam before graduation.

Comprehensive Counseling Exam

Graduation from MACP program students requires passing of a comprehensive Counseling exam.

Comprehensive Bible Exam

Graduation from MDiv program students requires passing of a comprehensive Bible exam. Students must pass the exam during the length of study for graduation.

Application for Graduation

Students must file their applications and pay their graduation fee at the time of enrollment for their last semester of study. All financial accounts and documents, files, etc., are to be in satisfactory order before a student is permitted to graduate. Students are expected to be present for graduation. Graduation in absentia will be permitted only by special approval of the Chief Academic Officer in response to a written request that cites acceptable reasons.

Academic Freedom Policies

WMU recognizes that within the field of education, academic freedom is a highly held right. In that regard, WMU will do everything possible to ensure that faculty members are given the freedom to represent views, theories, research results, and opinions in the normal process of teaching their assigned courses. However, WMU also recognizes that academic freedom must be weighed in response to the responsibilities of Christian faith and practice. The principles of developing Christian community, the responsibility of leadership by faculty members as role models to the students, and the ethics of Christian faith as prescribed by the school's

Statement of Faith also provide the boundaries within which faculty members are given to exercise their academic freedom. Faculty members, who hold differing and potentially contentious theological views, may be asked to step down from their faculty positions. When this happens, WMU will still hold the resigning faculty member in highest regard, realizing that the human perspective on theological truth is never complete and clear.

WMU has adopted the statement of Academic Freedom as developed by the Association of Theological Schools, a recognized accrediting association by the U.S. Department of Education, as its standard concerning faculty academic freedom. The statement reads as follows:

1. The Christian faith directs all thought and life toward God who is the source of truth, the judge of all human thoughts, and the ultimate end of all theological inquiry.
2. The freedom of the Christian always involves a commensurate responsibility toward God and neighbor. It is never the freedom merely to be left alone or ignore basic obligations.
3. Christian freedom exists within the confession of Christian faith. A theological school may acknowledge specific confessional adherence as laid down in its own charter and constitution. A concept of freedom appropriate to a theological school will respect this confessional loyalty, both in the institution and with their individual members. At the same time, no confessional standard obviates the requirement for responsible liberty of conscience in the Christian community and the practice of the highest ideal of academic freedom.
4. While freedom must ultimately be realized through the spirit and loyalties of humanity, it must take form and be protected through concrete standards of institutional practice. Every statement of such standards moves somewhat in the sphere of law and regulation. We recognized that the effectiveness of stated principles depends finally upon the dedication within the Christian theological school to a genuine

concern for liberty of mind and spirit in theological teaching.

Withdrawal & Leave of Absence

Students wishing to withdraw from the school must complete a Petition to Withdraw, secure the necessary signatures, and submit it to the registrar's office. Courses must be officially dropped or a grade of "F" will be entered on the permanent record. Failure to properly withdraw will result in the student not being allowed to re-enroll in the future or to receive proper refunds.

In the case of discontinuing course work due to serious illness or other valid reasons, permission for a leave of absence may be granted by the Chief Academic Officer. The student must submit a Leave of Absence Form and in certain cases submit a petition with documentation (i.e., a note from a licensed doctor, etc.).

International Students

Those who want to transfer out have to complete a Petition to Transfer, secure the necessary signatures, and submit it to the registrar's office.

International students who want to transfer in should complete the Transfer Release form and get necessary information from the previous schools for benefits of F-1 visa status.

Contract, Cancellation, and Dismissal

Registration can be canceled anytime by students without hindrance. The contract and cancellation forms are available in the admissions office.

Concerning refunds, see the Financial Information section.

Students who do not register consecutively for more than two semesters without written notification will be dismissed automatically for academic reasons. Dismissed students desiring to be re-admitted must submit a re-admission application.

Right to Review the Academic Record

Students have the right to review their own academic records and files. To review them, a request form must be filed with the Registrar. Any errors will be corrected.

Satisfactory Academic Progress Policy

Full-Time Graduate Students:

Satisfactory Academic Progress toward a graduate degree as a full-time graduate student is obtained by completing nine or more credits per semester or 18 or more credits per academic year while maintaining a cumulative GPA of 2.5 or higher. Repeated courses which students previously passed cannot be counted toward minimum Satisfactory Academic Progress requirements. The student must complete the degree requirements within the period of time required when progressing at the minimum full-time rate.

For example, in a program requiring 96 credits progressing at nine credits, a student would have 11 semesters (approximately 5 years) to complete the program. When a graduate student takes 9 credits each semester, he/she is considered full time, however, in order to complete the program within the "normal" time frame, a student must take at least 12 credits each semester.

Academic Standing

At the end of each semester, a student's progress will be monitored. When there is evidence of lack of satisfactory progress toward meeting graduation requirements, the Academic Committee may place students on academic probation or disqualify them from attendance at the university.

Academic Warning

Graduate students receive an academic warning when the semester GPA is lower than 2.5 but the cumulative WMU GPA is 2.5 or higher. This notation is not recorded on the student's academic transcript.

Academic Probation

To remain in acceptable academic standing, WMU graduate students must maintain a cumulative GPA of 2.5 or higher. The school will notify the student in writing, when their cumulative GPA is below 2.5 for graduate students and place the student on academic probation for two semesters. Academic probation will be recorded on the student's permanent academic record.

Students on academic probation are limited to a course load of 9 credits or fewer.

A student failing to attain the minimum GPA during the probationary period may be dismissed. If the student remains on probation for two consecutive semesters the student may be dismissed from WMU.

Incoming students may be admitted on academic probation.

The student's baccalaureate degree was granted from a non-accredited institution. In such cases, the probationary status may be removed after the completion of 12 credit hours of satisfactory work as compared to the required GPA for acceptable academic standing.

Probation Removed

If the student raises their cumulative GPA above the minimum requirement during the probation period, he/she will be removed from probation and it will be recorded on the student's academic record.

Appeals

If a student is dismissed for failure to meet academic standards, the student may appeal to the Academic Committee for readmission. The student must show that there were exceptional circumstances involved and provide evidence indicating that he or she can remove the GPA deficiency within one semester.

Academic Integrity Commitment

The maintenance of academic integrity and quality education is the responsibility of each student at World Mission University (WMU). Cheating or plagiarism in connection with an academic program is an offense for which a student may be expelled, suspended, or given a less-severe disciplinary action. Academic dishonesty is a serious offense which diminishes the quality of scholarship and defrauds those who depend upon the integrity of the educational system. Academic dishonesty includes:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
 - a. Students completing any examination should assume that

external assistance (e.g., Books, notes, calculators, conversations with others) is prohibited unless specifically authorized by the instructor.

- b. Students may not allow others to conduct research or prepare any work for them without advance authorization from the instructor.
- c. Substantial portions of the same academic work may not be submitted for credit in more than one course without authorization.

2. Fabrication: Intentional falsification or invention of any information or citation in an academic exercise.
3. Facilitation of academic dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.
4. Plagiarism: Intentionally or knowingly representing the works, ideas, or work of another as one's own in any academic exercise.

International Students

F-1 students are held to the same standards as regular students and must maintain Academic eligibility.

If an F-1 student fails to maintain Satisfactory Academic Progress, he/she will be notified in writing and placed on academic probation for one semester. The F-1 student must show he/she is making progress during the probation period. If at the end of that semester the student has not brought their GPA above the satisfactory level of 2.5, the student will be dismissed from the university and their I-20 will be terminated.

Academic Freedom Policies

WMU recognizes that within the field of education, academic freedom is a highly held right. In that regard, WMU will do everything possible to ensure that faculty members are given the freedom to r opinions in the normal process of teaching their assigned courses. However, WMU also recognizes that academic freedom must be weighed in response to the responsibilities of Christian faith and practice. The principles of developing Christian community, the responsibility of leadership by faculty members as role models to the students, and the ethics of Christian faith as prescribed by the school's Statement of Faith also provide the boundaries within which faculty members are given to exercise their academic freedom. Faculty members, who hold differing and potentially contentious theological views, may be asked to step down from their faculty positions. When this happens, WMU will still hold the resigning faculty member in highest regard, realizing that the human perspective on theological truth is never complete and clear.

WMU has adopted the statement of Academic Freedom as developed by the Association of Theological Schools, a recognized accrediting association by the U.S. Department of Education, as

its standard concerning faculty academic freedom. The statement reads as follows:

1. The Christian faith directs all thought and life toward God who is the source of truth, the judge of all human thoughts, and the ultimate end of all theological inquiry.
2. The freedom of the Christian always involves a commensurate responsibility toward God and neighbor. It is never the freedom merely to be left alone or ignore basic obligations.
3. Christian freedom exists within the confession of Christian faith. A theological school may acknowledge specific confessional adherence as laid down in its own charter and constitution. A concept of freedom appropriate to a theological school will respect this confessional loyalty, both in the institution and with their individual members. At the same time, no confessional standard obviates the requirement for responsible liberty of conscience in the Christian community and the practice of the highest ideal of academic freedom.
4. While freedom must ultimately be realized through the spirit and loyalties of humanity, it must take form and be protected through concrete standards of institutional practice. Every statement of such standards moves somewhat in the sphere of law and regulation. We recognized that the effectiveness of stated principles depends finally upon the dedication within the Christian theological school to a genuine concern for liberty of mind and spirit in theological teaching.

Withdrawal & Leave of Absence

Students wishing to withdraw from the school must complete a Petition to Withdraw, secure the necessary signatures, and submit it to the registrar's office. Courses must be officially dropped or a grade of "F" will be entered on the permanent record. Failure to properly withdraw will result in the student not being allowed to re-enroll in the future or to receive proper refunds.

In the case of discontinuing course work due to serious illness or other valid reasons, permission for a leave of absence may be granted by the Director of each doctoral program. The student must submit a Leave of Absence Form and in certain cases submit a petition with documentation (i.e., a note from a licensed doctor, etc.).

International Students

Those who want to transfer out have to complete a Petition to Transfer, secure the necessary signatures, and submit it to the registrar's office.

International students who want to transfer in should complete the Transfer Release form and get necessary information from the previous schools for benefits of F-1 visa status.

Contract, Cancellation, and Dismissal

Right to Review the Academic Record

Students have the right to review their own academic records and files. To review them, a request form must be filed with the Registrar. Any errors will be corrected.

Satisfactory Academic Progress Policy

Full-Time Students:

Satisfactory Academic Progress toward a graduate degree as a full-time graduate student is obtained by completing eight or more credits per semester or 16 or more credits per academic year while maintaining a cumulative GPA of 3.0 or higher. Repeated courses which students previously passed cannot be counted toward minimum Satisfactory Academic Progress requirements. The student must complete the degree requirements within the period of time required when progressing at the minimum full-time rate.

Academic Standing

At the end of each semester, a student's progress will be monitored. When there is evidence of lack of satisfactory progress toward meeting graduation requirements, the Academic Committee may place students on academic probation or disqualify them from attendance at the university.

Academic Warning

Doctoral program students receive an academic warning when he/she earns a B- in a course. This notation is not recorded on the student's academic transcript.

Academic Probation

When a student earns a second B- in a course, he/she will be placed on academic probation. The school will notify the student in writing.

Academic probation will be recorded on the student's permanent academic record.

A third grade of a B- will result in dismissal from the school.

Appeals

If a student is dismissed for failure to meet academic standards, the student may appeal to the Academic Committee for readmission. The student must show that there were exceptional circumstances involved and provide evidence indicating that he or she can remove the GPA deficiency within one semester.

Academic Integrity Commitment

The maintenance of academic integrity and quality education is the responsibility of each student at World Mission University (WMU). Cheating or plagiarism in connection with an academic program is an offense for which a student may be expelled, suspended, or given a less-severe disciplinary action. Academic dishonesty is a serious offense which diminishes the quality of scholarship and defrauds those who depend upon the integrity of the educational system. Academic dishonesty includes:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.

- a. Students completing any examination should assume that external assistance (e.g., books, notes, calculators, conversations with others) is prohibited unless specifically authorized by the instructor.
 - b. Students may not allow others to conduct research or prepare any work for them without advance authorization from the instructor.
 - c. Substantial portions of the same academic work may not be submitted for credit in more than one course without authorization.
2. Fabrication: Intentional falsification or invention of any information or citation in an academic exercise.
 3. Facilitation of academic dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.
 4. Plagiarism: Intentionally or knowingly representing the works, ideas, or work of another as one's own in any academic exercise.

International Students

F-1 students are held to the same standards as regular students and must maintain Academic eligibility. If an F-1 student fails to maintain Satisfactory Academic Progress, he/she will be notified in writing and placed on academic probation for one semester. The F-1 student must show he/she is making progress during the probation period. If at the end of that semester the student has not brought their GPA above the satisfactory level of 3.0, the student will be dismissed from the university and their I-20 will be terminated.

Academic Freedom Policies

WMU recognizes that within the field of education, academic freedom is a highly held right. In that regard, WMU will do everything possible to ensure that faculty members are given the freedom to r opinions in the normal process of teaching their assigned courses. However, WMU also recognizes that academic freedom must be weighed in response to the responsibilities of Christian faith and practice. The principles of developing Christian community, the responsibility of leadership by faculty members as role models to the students, and the ethics of Christian faith as prescribed by the school's Statement of Faith also provide the boundaries within which faculty members are given to exercise their academic freedom. Faculty members, who hold differing and potentially contentious theological views, may be asked to step down from their faculty positions. When this happens, WMU will still hold the resigning faculty member in highest regard, realizing that the human perspective on theological truth is never complete and clear.

WMU has adopted the statement of Academic Freedom as developed by the Association of Theological Schools, a recognized accrediting association by the U.S. Department of Education, as its standard concerning faculty academic freedom. The statement reads as follows:

5. The Christian faith directs all thought and life toward God who is the source of truth, the judge of all human thoughts, and the ultimate end of all theological inquiry.

6. The freedom of the Christian always involves a commensurate responsibility toward God and neighbor. It is never the freedom merely to be left alone or ignore basic obligations.
7. Christian freedom exists within the confession of Christian faith. A theological school may acknowledge specific confessional adherence as laid down in its own charter and constitution. A concept of freedom appropriate to a theological school will respect this confessional loyalty, both in the institution and with their individual members. At the same time, no confessional standard obviates the requirement for responsible liberty of conscience in the Christian community and the practice of the highest ideal of academic freedom.
8. While freedom must ultimately be realized through the spirit and loyalties of humanity, it must take form and be protected through concrete standards of institutional practice. Every statement of such standards moves somewhat in the sphere of law and regulation. We recognized that the effectiveness of stated principles depends finally upon the dedication within the Christian theological school to a genuine concern for liberty of mind and spirit in theological teaching.

Withdrawal & Leave of Absence

Students wishing to withdraw from the school must complete a Petition to Withdraw, secure the necessary signatures, and submit it to the registrar's office. Courses must be officially dropped or a grade of "F" will be entered on the permanent record. Failure to properly withdraw will result in the student not being allowed to re-enroll in the future or to receive proper refunds.

In the case of discontinuing course work due to serious illness or other valid reasons, permission for a leave of absence may be granted by the Director of each doctoral program. The student must submit a Leave of Absence Form and in certain cases submit a petition with documentation (i.e., a note from a licensed doctor, etc.).

International Students

Those who want to transfer out have to complete a Petition to Transfer, secure the necessary signatures, and submit it to the registrar's office.

International students who want to transfer in should complete the Transfer Release form and get necessary information from the previous schools for benefits of F-1 visa status.

Contract, Cancellation, and Dismissal

Registration can be canceled anytime by students without hindrance. The contract and cancellation forms are available in the admissions office.

Concerning refunds, see the Financial Information section.

Students who do not register consecutively for more than two semesters without written notification will be dismissed automatically for academic reasons. Dismissed students desiring to be re-admitted must submit a re-admission application.

Right to Review the Academic Record

Students have the right to review their own academic records and files. To review them, a request form must be filed with the Registrar. Any errors will be corrected.

Satisfactory Academic Progress Policy

Full-Time Students:

Satisfactory Academic Progress toward a graduate degree as a full-time graduate student is obtained by completing eight or more credits per semester or 16 or more credits per academic year while maintaining a cumulative GPA of 3.0 or higher. Repeated courses which students previously passed cannot be counted toward minimum Satisfactory Academic Progress requirements. The student must complete the degree requirements within the period of time required when progressing at the minimum full-time rate.

Academic Standing

At the end of each semester, a student's progress will be monitored. When there is evidence of lack of satisfactory progress toward meeting graduation requirements, the Academic Committee may place students on academic probation or disqualify them from attendance at the university.

Academic Warning

Doctoral program students receive an academic warning when he/she earns a B- in a course. This notation is not recorded on the student's academic transcript.

Academic Probation

When a student earns a second B- in a course, he/she will be placed on academic probation. The school will notify the student in writing.

Academic probation will be recorded on the student's permanent academic record.

A third grade of a B- will result in dismissal from the school.

Appeals

If a student is dismissed for failure to meet academic standards, the student may appeal to the Academic Committee for readmission. The student must show that there were exceptional circumstances involved and provide evidence indicating that he or she can remove the GPA deficiency within one semester.

Academic Integrity Commitment

The maintenance of academic integrity and quality education is the responsibility of each student at World Mission University (WMU). Cheating or plagiarism in connection with an academic program is an offense for which a student may be expelled, suspended, or given a less-severe disciplinary action. Academic dishonesty is a serious offense which diminishes the quality of scholarship and defrauds those who depend upon the integrity of the educational system. Academic dishonesty includes:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
 - a. Students completing any examination should assume that external assistance (e.g., books, notes, calculators, conversations with others) is prohibited unless specifically authorized by the instructor.
 - b. Students may not allow others to conduct research or prepare any work for them without advance authorization from the instructor.
 - c. Substantial portions of the same academic work may not be submitted for credit in

more than one course without authorization.

2. Fabrication: Intentional falsification or invention of any information or citation in an academic exercise.
3. Facilitation of academic dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.
5. Plagiarism: Intentionally or knowingly representing the works, ideas, or work of another as one's own in any academic exercise.

International Students

F-1 students are held to the same standards as regular students and must maintain Academic eligibility. If an F-1 student fails to maintain Satisfactory Academic Progress, he/she will be notified in writing and placed on academic probation for one semester. The F-1 student must show he/she is making progress during the probation period. If at the end of that semester the student has not brought their GPA above the satisfactory level of 3.0, the student will be dismissed from the university and their I-20 will be terminated.

Academic Freedom Policies

WMU recognizes that within the field of education, academic freedom is a highly held right. In that regard, WMU will do everything possible to ensure that faculty members are given the freedom to r opinions in the normal process of teaching their assigned courses. However, WMU also recognizes that academic freedom must be weighed in response to the responsibilities of Christian faith and practice. The principles of developing Christian community, the responsibility of leadership by faculty members as role models to the students, and the ethics of Christian faith as prescribed by the school's Statement of Faith also provide the boundaries within which faculty members are given to exercise their academic freedom. Faculty members, who hold differing and potentially contentious theological views, may be asked to step down from their faculty positions. When this happens, WMU will still hold the resigning faculty member in highest regard,

WMU has adopted the statement of Academic Freedom as developed by the Association of Theological Schools, a recognized accrediting association by the U.S. Department of Education, as its standard concerning faculty academic freedom. The statement reads as follows:

1. The Christian faith directs all thought and life toward God who is the source of truth, the judge of all human thoughts, and the ultimate end of all theological inquiry.
2. The freedom of the Christian always involves a commensurate responsibility toward God and neighbor. It is never the freedom merely to be left alone or ignore basic obligations.
3. Christian freedom exists within the confession of Christian faith. A theological school may acknowledge specific confessional adherence as laid down in its own charter and constitution. A concept of freedom appropriate to a theological school will respect this confessional loyalty, both in the institution and with their individual members. At the same time, no confessional standard obviates the requirement for responsible liberty of conscience in the Christian community and the practice of the highest ideal of academic freedom.
4. While freedom must ultimately be realized through the spirit and loyalties of humanity, it must take form and be protected through concrete standards of institutional practice. Every statement of such standards moves somewhat in the sphere of law and regulation. We recognized that the effectiveness of stated principles depends finally upon the dedication within the Christian theological school to a genuine concern for liberty of mind and spirit in theological teaching.

Withdrawal & Leave of Absence

Students wishing to withdraw from the school must complete a Petition to Withdraw, secure the necessary signatures, and submit it to the registrar's office. Courses must be officially dropped or a grade

of “F” will be entered on the permanent record. Failure to properly withdraw will result in the student not being allowed to re-enroll in the future or to receive proper refunds.

In the case of discontinuing course work due to serious illness or other valid reasons, permission for a leave of absence may be granted by the Director of each doctoral program. The student must submit a Leave of Absence Form and in certain cases submit a petition with documentation (i.e., a note from a licensed doctor, etc.).

Contract, Cancellation, and Dismissal

Registration can be canceled anytime by students without hindrance. The contract and cancellation forms are available in the admissions office.

Concerning refunds, see the Financial Information section.

Students who do not register consecutively for more than two semesters without written notification will be dismissed automatically for academic reasons. Dismissed students desiring to be re-admitted must submit a re-admission application.

Right to Review the Academic Record

Students have the right to review their own academic records and files. To review them, a request form must be filed with the Registrar. Any errors will be corrected.

Satisfactory Academic Progress Policy

Full-Time Students:

Satisfactory Academic Progress toward a graduate degree as a full-time graduate student is obtained by completing eight or more credits per semester or 16 or more credits per academic year while maintaining a cumulative GPA of 3.0 or higher. Repeated courses which students previously passed cannot be counted toward minimum Satisfactory Academic Progress requirements. The student must complete the degree requirements within the period of time required when progressing at the minimum full-time rate.

Academic Standing

At the end of each semester, a student’s progress will be monitored. When there is evidence of lack of satisfactory progress toward meeting graduation

requirements, the Academic Committee may place students on academic probation or disqualify them from attendance at the university.

Academic Warning

Doctoral program students receive an academic warning when he/she earns a B- in a course. This notation is not recorded on the student’s academic transcript.

Academic Probation

When a student earns a second B- in a course, he/she will be placed on academic probation. The school will notify the student in writing.

Academic probation will be recorded on the student’s permanent academic record.

A third grade of a B- will result in dismissal from the school.

Appeals

If a student is dismissed for failure to meet academic standards, the student may appeal to the Academic Committee for readmission. The student must show that there were exceptional circumstances involved and provide evidence indicating that he or she can remove the GPA deficiency within one semester.

Academic Integrity Commitment

The maintenance of academic integrity and quality education is the responsibility of each student at World Mission University (WMU). Cheating or plagiarism in connection with an academic program is an offense for which a student may be expelled, suspended, or given a less-severe disciplinary action. Academic dishonesty is a serious offense which diminishes the quality of scholarship and defrauds those who depend upon the integrity of the educational system. Academic dishonesty includes:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
 - a. Students completing any examination. should assume that external assistance (e.g., books, notes, calculators, conversations with others) is prohibited unless specifically authorized by the instructor.
 - b. Students may not allow others to conduct.

research or prepare any work for them without advance authorization from the instructor.

c. Substantial portions of the same academic work may not be submitted for credit in more than one course without authorization.

2. Fabrication: Intentional falsification or invention of any information or citation in an academic exercise.

3. Facilitation of academic dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.

3. Plagiarism: Intentionally or knowingly representing the works, ideas, or work of another as one's own in any academic exercise.

International Students

F-1 students are held to the same standards as regular students and must maintain Academic eligibility. If an F-1 student fails to maintain Satisfactory Academic Progress, he/she will be notified in writing and placed on academic probation for one semester. The F-1 student must show he/she is making progress during the probation period. If at the end of that semester the student has not brought their GPA above the satisfactory level of 3.0, the student will be dismissed from the university and their I-20 will be terminated.

If the course is retaken, the new grade will be calculated into the student's Grade Point Average (GPA) replacing the previous failing grade. The credits are counted only once. All grades become a permanent part of the student's academic history. Student must pay the current tuition to retake the course.

Academic Freedom Policies

WMU recognizes that within the field of education, academic freedom is a highly held right. In that regard, WMU will do everything possible to ensure that faculty members are given the freedom to r opinions in the normal process of teaching their assigned courses. However, WMU also recognizes that academic freedom must be weighed in response to the responsibilities of Christian faith and practice. The principles of developing Christian community, the responsibility of leadership by faculty members as role models to the students, and the ethics of Christian faith as prescribed by the school's Statement of Faith also provide the boundaries within which faculty members are given to exercise their academic freedom. Faculty members, who hold differing and potentially contentious theological views, may be asked to step down from their faculty positions. When this happens, WMU will still hold the resigning faculty member in highest regard, realizing that the human perspective on theological truth is never complete and clear.

WMU has adopted the statement of Academic Freedom as developed by the Association of Theological Schools, a recognized accrediting association by the U.S. Department of Education, as its standard concerning faculty academic freedom. The statement reads as follows:

9. The Christian faith directs all thought and life toward God who is the source of truth, the judge of all human thoughts, and the ultimate end of all theological inquiry.
10. The freedom of the Christian always involves a commensurate responsibility toward God and neighbor. It is never the freedom merely to be left alone or ignore basic obligations.
11. Christian freedom exists within the confession of Christian faith. A theological school may acknowledge specific confessional adherence as laid down in its own charter and constitution. A concept of freedom appropriate to a theological school will respect this confessional loyalty, both in the institution and with their individual members. At the same time, no confessional standard obviates the requirement for

responsible liberty of conscience in the Christian community and the practice of the highest ideal of academic freedom.

12. While freedom must ultimately be realized through the spirit and loyalties of humanity, it must take form and be protected through concrete standards of institutional practice. Every statement of such standards moves somewhat in the sphere of law and regulation. We recognized that the effectiveness of stated principles depends finally upon the dedication within the Christian theological school to a genuine concern for liberty of mind and spirit in theological teaching.

Withdrawal & Leave of Absence

Students wishing to withdraw from the school must complete a Petition to Withdraw, secure the necessary signatures, and submit it to the registrar's office. Courses must be officially dropped or a grade of "F" will be entered on the permanent record. Failure to properly withdraw will result in the student not being allowed to re-enroll in the future or to receive proper refunds.

In the case of discontinuing course work due to serious illness or other valid reasons, permission for a leave of absence may be granted by the Director of each doctoral program. The student must submit a Leave of Absence Form and in certain cases submit a petition with documentation (i.e., a note from a licensed doctor, etc.).

International Students

Those who want to transfer out have to complete a Petition to Transfer, secure the necessary signatures, and submit it to the registrar's office.

International students who want to transfer in should complete the Transfer Release form and get necessary information from the previous schools for benefits of F-1 visa status.

Contract, Cancellation, and Dismissal

Registration can be canceled anytime by students without hindrance. The contract and cancellation forms are available in the admissions office.

Concerning refunds, see the Financial Information section.

Students who do not register consecutively for more than two semesters without written notification will be dismissed automatically for academic reasons. Dismissed students desiring to be re-admitted must submit a re-admission application.

Right to Review the Academic Record

Students have the right to review their own academic records and files. To review them, a request form must be filed with the Registrar. Any errors will be corrected.

Satisfactory Academic Progress Policy

Full-Time Students:

Satisfactory Academic Progress toward a graduate degree as a full-time graduate student is obtained by completing eight or more credits per semester or 16 or more credits per academic year while maintaining a cumulative GPA of 3.0 or higher. Repeated courses which students previously passed cannot be counted toward minimum Satisfactory Academic Progress requirements. The student must complete the degree requirements within the period of time required when progressing at the minimum full-time rate.

Academic Standing

At the end of each semester, a student's progress will be monitored. When there is evidence of lack of satisfactory progress toward meeting graduation requirements, the Academic Committee may place students on academic probation or disqualify them from attendance at the university.

Academic Warning

Doctoral program students receive an academic warning when he/she earns a B- in a course. This notation is not recorded on the student's academic transcript.

Academic Probation

When a student earns a second B- in a course, he/she will be placed on academic probation. The school will notify the student in writing.

Academic probation will be recorded on the student's permanent academic record.

A third grade of a B- will result in dismissal from the school.

Appeals

If a student is dismissed for failure to meet academic standards, the student may appeal to the Academic Committee for readmission. The student must show that there were exceptional circumstances involved and provide evidence indicating that he or she can remove the GPA deficiency within one semester.

Academic Integrity Commitment

The maintenance of academic integrity and quality education is the responsibility of each student at World Mission University (WMU). Cheating or plagiarism in connection with an academic program is an offense for which a student may be expelled, suspended, or given a less-severe disciplinary action. Academic dishonesty is a serious offense which diminishes the quality of scholarship and defrauds those who depend upon the integrity of the educational system. Academic dishonesty includes:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
 - a. Students completing any examination should assume that external assistance (e.g., books, notes, calculators, conversations with others) is prohibited unless specifically authorized by the instructor.
 - b. Students may not allow others to conduct research or prepare any work for them without advance authorization from the instructor.
 - c. Substantial portions of the same academic work may not be submitted for credit in more than one course without authorization.
2. Fabrication: Intentional falsification or invention of any information or citation in an academic exercise.
3. Facilitation of academic dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.
4. Plagiarism: Intentionally or knowingly representing the works, ideas, or work of another as one's own in any academic exercise.

International Students

F-1 students are held to the same standards as regular students and must maintain Academic eligibility. If an F-1 student fails to maintain Satisfactory Academic Progress, he/she will be notified in writing and placed on academic probation for one semester. The F-1 student must show he/she is making progress during the probation period. If at the end of that semester the student has not brought their GPA above the satisfactory level of 3.0, the student will be dismissed from the university and their I-20 will be terminated.

**Doctor of Philosophy
In Practical Theology
With Concentration in
Religion and Culture**

Purpose and Goals

The 'Religion and Culture' Major, established in the Doctor of Philosophy degree program, aims to reconstruct Christian theology more appropriately for modern society and carry out practical tasks required of Christianity and the church. More specifically, the Religion and Culture Major provides the ability for pastors, missionaries, or lay leaders to respond to the needs of contemporary society more effectively by further enhancing their expertise in their activities, such as preaching and missions, with the help of professional research in this field. In other words, based on the academic system of the relationship between religion and culture, it aims to support the cultivation of theology and the church, thereby communicating with the world through literary imagination, historical interpretation, and philosophical criticism, along with social scientific analysis centered on civilization criticism.

For this purpose, the Religion and Culture Major presupposes a more intensive awareness of contemporary society as follows. In a situation where the topography of the world's mental culture, such as politics, economy, and society, is rapidly changing, Korea is also changing rapidly. In addition, the Korean diaspora spread all over the world, including the Korean American community, is living in a completely different era of upheaval. The current state of religion and mission field are no exception, and in many other countries as well as Korea, many tasks such as the decrease in the Protestant population and the decline in social public confidence in the post-religious situation are pouring into the Christian and theological circles. The

reasons are complex, but one of the main reasons is that the church does not understand the world and cannot communicate with society. Moreover, the external factor that denies the existence or meaning of religion itself is rapidly increasing. Therefore, today, living in the post-religious era of post-Christian society, we should not only look at Christianity introspectively but also pursue a more detailed analysis of the reality of religion throughout society. If the reality of life as a whole is characterized by culture, it is for this reason that introspective exploration of such culture is essential. The Religion and Culture Major is a theoretical yet practical field composed of such critical approach to our urgent goal.

To this end, Religion and Culture major studies of religion reinterpret the meaning of the Christian gospel in a multi-religious situation where many religions coexist and constitute a curriculum that can have greater persuasion to modern people. Meanwhile, studies of culture consist of a practical curriculum so that it can be applied more effectively in today's secularized multi-religious postmodern society. Upon completion of this degree program, students will have the following abilities: Through this course, pastors in the ministry field will be able to hone wider and deeper wisdom and insight for preaching, and missionaries in the mission field will be able to develop effective evangelism and contextualized mission theories. This is because ministry and mission are wisdom rather than knowledge, and insight rather than skill. By focusing professionally on the reconstruction of religious language and the understanding of other cultures, which are more urgently required in the preaching field of pastors and missionary field of missionaries, such goals can be achieved more effectively. For lay leaders who want to work in the professional field, it will be a full-fledged help to develop themselves as world Christians by adding depth to theological knowledge beyond the church's religious education. Through this, they will be able to do professional activities as lay ministers, whose demand is increasing more and more today. Religion and Culture Major will equip students with the ability to participate in original research and writing by integrally reconstructing social problems and solutions. Furthermore, it is of course that they will have the educational capacity suitable for higher education and the ability to engage the community in the church and community environment.

Program Learning Outcomes

Through the PhD degree program, students will achieve the following learning outcomes:

- (1) Construct, from a practical theology framework a comprehensive knowledge of historical and contemporary ideas of the interdisciplinary field combining religion and culture;
- (2) Demonstrate advanced competence to apply research methods of practical theology in the students' scholarship including integration of religion and culture in Korean church context;
- (3) Articulate advanced competence to engage in original research and writing that contributes to an interdisciplinary and contextual understanding of religion and culture;
- and (4) Enhance capacities for scholarship of teaching suitable for higher education and scholarship of community engagement in congregational and community settings.

PhD Program Course Description

PT801 Research Methodology for Practical Theology (4 credits)

This foundation course is about methodologies for academic research towards practical construction of theology. Students will explore the major issues in contemporary context for the purpose of investigating theological reflections, thereby contributing to the transformation and improvement of church and society.

PT802 Biblical-Theological Foundation for Spirituality and Counseling (4 credits)

This course tries to draw upon the possibility and necessity of integrating spirituality and counseling from biblical origins and theological construction, thereby justifying the task of practical theology with concentration on spirituality and counseling.

RC812 Theory of Religion and World Religions (4 credits)

Religious studies is an objective study of religion. Theology and religious studies deal with similar subjects, but with different methodologies. If theology approaches a religious phenomenon or a specific topic through 'engagement', religious

studies approaches it through 'at distance'. This course studies world religions with a value-free attitude that distances itself from religious phenomena and a multi-disciplinary approach that utilizes methodologies from various disciplines. First, it explores the etymology, history, and basic theories of what religion is, and later explores world religions in the age of secularization through various religious research methodologies such as sociology of religion, phenomenology of religion, psychology of religion, economics of religion, and comparative religion.

RC813 Christian Self-Identity and Other-Relatedness in Multi-Religious Context (4 credits)

After the early days when Christianity was persecuted, it rose very rapidly as the religion of the reigning emperor and secured a foothold for globalization. However, it reached the age of no religion in contemporary scene after passing through the ages of dereligionizing and anti-religion. Furthermore, by facing the problem of the status of Christianity, which has become more confused in a situation where other religions coexist, it is a desirable way to set as a task various concerns about how Christians should establish their own identity and relate to people of other religions or non-religious people at the same time. This course will directly contribute to the contemporary needs for the renovation of preaching at pastoral setting or teaching at mission setting.

RC814 Paradigm Shift in Zeitgeist and Contemporary Hermeneutics (4 credits)

In order to understand our present age, it is essential to look back at the history that has flowed from the past. For the background of the birth of Christianity, it examines the beginning and development of Christianity in the trajectory of the history of civilization after the premise of the process from the idea of civilization to ancient times. However, the past alone is not history, so in order to examine the meaning that must be possessed toward the present and future, we set up a structure that penetrates it, and through this, we try to understand Christianity in the context of the history of civilization through the wefts and warps of structure and history. Then, it concludes with hermeneutic reflection to understand the contemporary spirit of the times. Through this, preachers and missionaries will develop the ability to reconstruct and provide the meaning and value of Christianity in a more realistic way for contemporary people living today.

RC821 Contemporary Theology of Culture and the Role of Christianity (4 credits)

This course will examine one of the most comprehensive cultural theologies, which presented a dense theological analysis of modern culture, and reinterpret its reflections on how to recover and perform the role that religion should play on that basis. Through this, we seek new methods that are more suitable for our situation, while extracting wisdom and insight to play a proper role of Christianity and church for our society and culture.

RC822 Theory and Practice of Christian Apologetics in Religiously Plural Society (4 credits)

Apologetics is a religious discipline that defends religious doctrine through systematic debate and discourse. Among them, Christian apologetics is a field of Christian theology that proves the existence of God and defends the issues raised about the Christian faith. When inviting non-Christians to believe in Christianity, it is helpful to use the method of apologetics, so apologetics can be understood as a form of missiology or practical theology. This lecture examines the classic theories and the latest trends in Christian apologetics, the proof of God's existence, and the core of the Christian gospel, and based on this, aims to develop apologetic preaching and evangelism theories in today's secularized pluralistic society.

RC823 Intercultural Communication and Cultural Anthropology for World Christianity (4 credits)

If expansion through unilateral missions was the basic method in the history of Christianity, not only in the early days and the Middle Ages, but also in modern times, it has been more than half a century since we have been deeply reflecting on the many tragic side effects caused by such cultural imperialistic missions. Now, cultural exchanges are so frequent that they cannot be compared with previous times, so cross-cultural communication is needed in line with the increasing demand for new methods for the reconstruction of Christianity shared by the world, rather than Christianity in a specific region. Through cultural anthropology, realistic and concrete measures are sought for.

SF801 Profound Research on Spiritual Formation (4 credits)

This course examines the basic concepts and biblical

and historical roots of spiritual formation/direction and encourages students' research on spiritual formation based on the comprehensive understandings and knowledge. Spiritual formation is introduced by thorough review of related literature as well as by in-person participation in the group and individual spiritual practices, to prepare students for the profound research on themes in spiritual formation.

SF802 Research on Integration of Theology, Spirituality, and Psychology (4 credits)

This course actively engages three academic fields of theology, spirituality, and psychology, to integrate and cooperate for the in-depth understanding of the human context and further to enhance the counseling competency of students. The rigorous research to articulate students' own ideas about the integration culminates with the completion of the systematic research paper on the theme.

CC803 Advanced Coaching and Christian Spirituality(4 credits)

This course covers advanced coaching theories and techniques based on Christian spirituality. Find the core of Christian spirituality that is different from the humanistic perspective and apply it to coaching.

CC804 Culture, Worldview, and Coaching(4 credits)

By analyzing various cultures and worldviews from the perspective of cultural anthropology, students will research, develop, and apply coaching techniques suitable for each area.

CH803 Advanced Coaching and Mental Health Based on Psychology (4 credits)

This course takes a variety of counseling psychology-based approaches to the coaching methodology and reconstructs an efficient and practical evidence-based integrated coaching model.

CC811 Advanced Psychotherapy and Counseling Techniques (4 credits)

This course evaluates theories and techniques of contemporary psychotherapy and encourages students to integrate these into their counseling sessions.

CC812 Psychometric Theory & Assessment (4 credits)

This course will discuss principles of and issues in psychometrics, the branch of psychology concerned with the quantification and measurement of mental

attributes, behavior, and performance as well as with the design, analysis, and improvement of the tests used in such measurement. In addition, this course will introduce major psychological tests in the counseling field and learn how to implement and interpret them.

CC815 Advanced Counseling and Therapy for Human Relationships and Family (4 credits)

This course analyzes various relationship issues including family and equips students with effective counseling theories and techniques.

CC891 Counseling Practicum1 (4 credits)

The course trains students in the actual counseling settings under weekly supervision of the professor. By completing this course, students can practice their counseling/spiritual formation skills, effectively lead sessions, and enhance their counseling/spiritual formation competences.

PT811 Directed Studies 1

Students are expected to take two courses in Directed Studies for their individual research towards dissertation. Directed Studies may be taken for expanding and deepening the individual issues and concerns through intensive reading and writing under the supervision of dissertation advisor for one

course and a professor of other major area for another.

PT812 Directed Studies 2

Students are expected to take two courses in Directed Studies for their individual research towards dissertation. Directed Studies may be taken for expanding and deepening the individual issues and concerns through intensive reading and writing under the supervision of dissertation advisor for one course and a professor of other major area for another.

PT821 Research Clinic for Doctoral Dissertation (4 credits)

This course introduces basic method of writing dissertation. In comparison with Research Methodology for Practical Theology, this course places its focus more on the contents of individual interests and concerns in order to use them towards his/her dissertation.

Student Tuition Recovery Fund

“The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.”

“It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the

STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.

2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.

3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.

4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.

5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.

6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.

7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non collection may, at any time, file a written application for recovery from

STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.”

Federal Financial Aid

The cost of higher education has increased significantly and paying for higher education is a challenge for many students. Many students are forced to rely on some outside help to pay for the rising costs of postsecondary education. Some students work while attending school, others seek educational loans. Federal Student Aid (FSA) is available for WMU students. World Mission University (WMU) is committed to helping students apply and receive FSA based on their eligibility.

The financial aid office at WMU will do its best to assist students in the application process for FSA, answer questions, and process all FSA in a professional and timely manner.

Requirements for Eligibility

Requirements for Eligibility are the following:

- The student must be a citizen or eligible non-citizen
- Have a high school diploma or GED
- Must be enrolling in an eligible educational program
- Working toward a degree or certificate
- Making satisfactory academic progress
- Must not be in default of a previous federal educational loan
- If a student already has a Baccalaureate degree he/she is not eligible to received Pell grants but educational loans are available
- A student who has a federal or state drug conviction can be disqualified for Federal Student Aid

Applying for Federal Student Aid

To apply for Title IV aid, a student submits a Free Application for Federal Student Aid (FAFSA). This is required for all students who wish to receive FSA. Through an established formula a student’s need is calculated based on an analysis of household and financial information from the FAFSA and determining the Expected Family Contribution (EFC).

Types of Aid

- Federal Pell Grants are need-based and do not need to be repaid.
- Federal Supplemental Education Opportunities Grant (FSEOG) and Federal Work Study (FWS) programs are a campus-based, federally funded employment program that provides paid jobs on campus or off campus for students who need such earnings to meet a portion of their educational expenses.
- Direct Loans must be repaid once the student graduates or withdraws from school.
- WMU also offers some limited scholarships to students based on need.

For more information regarding financial aid please contact the Financial Aid Office.

Return of Title IV Funds Policy

When a student who receives Federal Student Aid funds withdraws from the World Mission University prior to completing 60% of a payment period or period of enrollment (Fall, Spring Semesters), the student may be required to return a portion of his/her Federal Aid received.

A return is only required of those students who withdraw from school, who cease to be enrolled. A student who reduced his/her course load is considered a reduction and not a withdrawal. A Return calculation is not required for such students.

The calculation required determines a student’s earned and unearned Title IV aid based on the percentage of the enrollment period completed by the student. The percentage of the period that the student remained enrolled is derived by dividing the number of days the student attended by the number of days in the enrollment period.

If the withdrawal date is after the 60% point in the payment period or period of enrollment, a student is considered to have earned 100% of the Title IV funds he or she was scheduled to receive during the period. For such a student there are no unearned funds. WMU will still complete a Return calculation in order to determine whether the student is eligible for a post-withdrawal disbursement.

WMU must determine the student's withdrawal date. The withdrawal date is defined as:

1. The date the student began the withdrawal process or officially notified WMU of his/her intent to withdraw; or
2. The last date of attendance at an academically-related activity by a student who does not notify WMU.

Based on the date of withdrawal, the financial aid office will determine the actual date of the student's withdrawal and using the Return of Title IV form provided by the Department of Education, calculate the amount, if any, the student must return. The student will then be notified by mail of any amount of Federal Aid that they must return. In some cases both the school and the student may be required to return unused or unearned portions of Federal Aid to the Federal Title IV program.

Overpayments and Overawards

There are times when a student's award package exceeds the student's need. There may be circumstances that change a student's award package after the aid has been awarded that result in an overpayment. For example a student may receive a scholarship or grant from an outside source or organization, or the student may want to extend his or her work-study employment. In case of overpayments or overawards the WMU financial aid office will need to make adjustments to the other federal student aid in the package.

When the total of all aid received by the student exceeds the student's cost of attendance budget, awards in the package will be adjusted (cancelled or reduced) in order to eliminate the overaward. Federal Work-Study awards and

loans will be reduced before any reduction is made to Pell grant or scholarship awards.

Students who owe funds due to overpayment or overaward will be required to make payment of those. As required by federal regulations, the Office of Financial Aid will report the overpayment to the Department of Education via the National Student Loan Data System (NSLDS) within 30 days from the date when the overpayment was created.

The amount of the overpayment may be satisfied by reducing the student's federal award(s) in a subsequent enrollment period during the same award year as the overpayment was created. If the overpayment amount cannot be satisfied by deducting the amount from a future disbursement, the student is responsible for making direct restitution.

For examples of the Return of Title IV Funds calculations or questions regarding the overpayment policy, please contact the Financial Aid Office.

Student Life and Services

Standards of Conduct

It is assumed that each student who enrolls at WMU will be in accord with the school's aims and will cooperate in furthering these purposes by adhering to the regulations governing student behavior (Philippians 3:17). WMU expects all of its students and employees to abide by the highest standards of moral and ethical behavior in harmony with its Christian philosophy and purposes (I Peter 1:15-16). WMU reserves the right to refuse admittance to or to suspend any person who violates these principles.

The Standards of Conduct attempt to stimulate not only intellectual growth, but also spiritual, ethical, and emotional growth. Furthermore, it creates a climate of mutual trust, respect, and interpersonal concern where openness and integrity prevail (Romans 12:10, I John 4:21, I Peter 2:17, Hebrews 13:16-17).

The Standards of Conduct emphasize the dignity of each individual in pursuing self-improvement and developing full personal potential (I Corinthians 10:24). Each member of the WMU community is expected to adhere to and enforce the standards (Genesis 1:26-27, Romans 12:2, I Peter 1:15-16). A full statement of the WMU's Standards of Conduct is included in the WMU College Student Handbook. It is the obligation of every student to be familiar with this standard.

Improper conduct for which students are subject to discipline includes dishonesty in any form. Furnishing false information to the school with prior knowledge, forgery, alterations, or misuse of any WMU documents are violations of this principle.

Discipline

A student violating any regulation of WMU intentionally and continuously will be disciplined.

Any student whose GPA is below 2.0 on the 4.0 scale will be placed on probation.

Any student whose moral conduct violates Christian principles will be disciplined. This includes, but is not limited to: cheating, plagiarism, drunkenness, sexual assault, physical violence, adultery, homosexual conduct, and stealing. Discipline will be administered through the Administrative Committee. There are four categories of discipline: warning, probation, suspension, and dismissal. Appropriate demonstration of Christian character is a requirement for graduation.

The university does not operate dormitories. International students who need to find housing can search on local Korean websites for vacancies near the university.

Students will be referred to outside professional counseling services when necessary.

Graduation and Employment

Those who minister at WMU feel they are stewards of the students God has entrusted to us to equip for His service. We have been proud of the dedication and hard work demonstrated by our students. Since our founding in 1989, we are grateful to have seen many students graduate from our bachelor and graduate programs. More impressive than the dedication to study demonstrated by our students has been their commitment to serve Jesus Christ after graduation. Many of our alumni are serving in ministry positions, serving overseas as missionaries, and/or are currently pursuing graduate studies.

Student Complaint and Grievance Procedures

Student Privacy Policy

WMU protects the privacy of all students, adhering to the same privacy standards for online students as it does for students studying on the campus. WMU issues a unique user ID and password to each student upon enrollment and each college employee upon date of employment. The user ID is required for both students and faculty to access the

MOODLE course management system for all courses, including Online courses (MOODLE stands for Modular Object-Oriented Dynamic Learning Environment). MOODLE is a secure environment where faculty members post course materials, assignments and exams, provide chat and discussion forums for their courses, and where students participate in forum discussions, chat sessions, upload assignments, and take quizzes and exams. The privacy of individual students' assessments and grades is maintained within the course management system.

Anyone using MOODLE is required to have a unique user ID and password to access any course management resources. Faculty are restricted to accessing information associated with the specific courses they teach. Students are automatically enrolled in courses through a batch process run by the administrative team in May, June, July, August, and January each year and identified by their unique user ID and password. Students are restricted to faculty-published information in courses for which they have enrolled and student-group related activities in a given course. Guest access to courses is not allowed. Course and user profile information is not visible to anyone without an account. Authorized Moodle users cannot view the profile information of other users unless those users give permission.

Secure Login and Password: Each Online faculty and student enters his/her user ID and password into Moodle to gain access to authorized Moodle learning environment resources. This combination of user ID and password identifies faculty and students to the system on each course visit. All users should understand the following:

- All parties accept responsibility for the security of their personal passwords;
- Private student information is separated from others' within the course management system and protected from outside intruders through limited student group permissions; and
- Private faculty information is protected from student views within the course management system and from outside intruders through typical faculty group permissions.

Technical Requirements

It will be essential for you to have access to a computer if you take a course delivered via the internet. You may also use the computers located in the library. Students are expected to check their e-mail on at least a weekly basis for communication with their instructors. Having your own computer may be more convenient.

You need to have some basic technology skills, such as word processing and using a web browser. If you don't presently possess these skills, you will need to pick up on them fairly quickly. If you don't think you can learn these technology skills easily, you may need to develop new skills, take a class or do some reading before enrolling.

The successful online student knows how to:

- Start, shut down, and reboot a computer appropriately;
- Use a keyboard and mouse gracefully;
- Use his or her Internet Service Provider or otherwise gain access to the Internet;
- Access URLs (addresses) on the Internet;
- Use online search tools to locate materials on the web;
- Navigate forward and backward on web sites with links, frames, image maps, and other elements;
- Troubleshoot a URL or link that is not working;
- Recognize when a "plug-in" is needed to view a particular web page;
- Print pages in the programs he or she uses, especially web browsers;
- Send, receive, reply to, and forward email;
- Send and receive email attachments;
- Use a word processor;
- Copy and paste text across documents and software applications;
- Save a document or other file to a particular location; and
- Find a file or document previously saved.

Spend some time at your computer and on the Internet every day, getting comfortable with your equipment and surroundings. Practice your computing skills until you feel confident that you can complete class assignments.

Student Responsibilities

In the Online environment, some responsibilities shift from the instructor to the student, given the

independent nature of the learning experience. In addition to setting and sticking to your own schedule, reading all the assigned chapters and keeping up with due dates, you must do a few things to make the Online process work:

- Do not procrastinate!;
- Make sure you keep a copy of every assignment you submit;
- Check with your instructor for the file format for assignments and how to submit them;
- Identify yourself in all e-mail messages using your actual name, as your e-mail address may not identify who you are; and
- Evaluate the course delivery method as well as the course. Ask for help when you need it.

Instructor Response Time

As a general policy, grades for all assignments and exams will be available two week after the due date or the exam date. If the time frame within which the instructor gives feedback and grades for exams or assignments varies, the instructor specify in the course syllabus the expected response time for all submissions.

Academic Honesty

Given the lack of face-to-face contact in the Online environment, instructors invest a great deal of trust in Online students. High expectations are held for the level of maturity and integrity in the Online student.
